Electricity Supply Mix

Under Ontario Regulation 416/99, Grimsby Power Incorporated is required to disclose the system-wide electricity supply mix to all standard supply service customers in its service area. The electricity supply mix is the combination of electricity sources used to generate the electricity consumed in Ontario.

The Ministry of Energy has provided a chart showing the electricity supply mix for 2011 to all electricity suppliers. For details, please refer to the other side of this insert.

For further information, please visit the Ontario Energy Board website at:
